Social 9B Girls Raise \$138 for ALS¹ Canada

Special thank-you to staff and students for supporting the Social 9B girls and their fundraising efforts to support the ALS society of Canada. ALS (Amyotrophic Lateral Sclerosis) is a debilitating disease that affects a person's nervous and muscular system, essentially paralyzing the patient within a 3-5 year period. Very little is known about the causes of the disease, and no cure has been found. The ALS society of Canada seeks to fund research for this devastating disease and seeks to offer support to patients and their families in coping with, and treating this illness.

A big thank-you to Amelia Entz, Barbra Entz, Madelyn Beer, Chelsea Haapala, Cassi Pierson, and their parents for the very generous ice creams and
